

2nd Knee & Hip Revision Arthroplasty Conference

5th, 6th & 7th December 2025
Hotel "The Grand" Vasant Kunj, New Delhi

Magnum Opus !!!

“ Three days exclusively dedicated to Knee and Hip Revision Arthroplasty !!! ”

A to Z of Revision Arthroplasty of Knee and Hip

● From Basics to Complex ...
Highly Structured
Step-by-Step Scientific Deliberations
on Revision Arthroplasty
of Knee and Hip
● spread over three days !!

- Tips and Pearls of Revision Techniques
- Live-Inbox Surgeries
- Video Vignettes on Techniques
- Thread Bare Discussion on Various Aspects of Revision Arthroplasty
- Panel / Case Based Discussions

◆ Organising Chairman ◆

WELCOME MESSAGE

Dear Colleagues,
Greetings from Delhi !!!

On behalf of Organising Team of RAC 2025, It gives me immense pleasure to welcome you all to the **"2nd Knee & Hip Revision Arthroplasty Conference (RAC) - 2025,"** to be held from **5th to 7th December 2025**, at hotel **"The Grand"** New Delhi.

After the resounding success of RAC 2024, this year's edition promises to be even more enriching, focused exclusively on the practical aspects, techniques, intricacies, innovations, and challenges of Revision Arthroplasty of Knee and Hip. Revision surgeries demand more than just technical proficiency. They require in-depth planning, precision, and a multidisciplinary approach. **RAC 2025** has been meticulously curated to cover the **A to Z of Revision Knee and Hip Arthroplasty**, featuring **Panel Discussions, Interactive Debates, Video Vignettes and Live Surgical Demonstrations.**

The presence of globally renowned Faculty and Thought Leaders will offer invaluable insights and practical takeaways for surgeons at every stage of their journey.

We look forward to welcoming you to New Delhi for a highly academic, collaborative, and stimulating three-day scientific extravaganza.

" Why should you attend RAC 2025 " ?

- ✳ Highly engaging **Scientific Program.** *RAC 2024 is a testament to it.*
- ✳ **Ample time** for In Depth Discussion. *We avoid saying " sorry we are running late, discuss it over lunch and dinner time."*
- ✳ How to go **prepared for revision:** *There can be unexpected intraoperative surprises.*
- ✳ Detailed Video **Demonstration of Surgical Techniques.** *We know they are complex and require careful exposure.*
- ✳ Detailed discussion on **Implants and Components available for Revision.** *We want to make you aware about the availability and utility of each Revision Component and implant from various companies.*
- ✳ Tips and pearls for **Longevity** of Revision Arthroplasty. *We want you to get out of thought process of just somehow finishing revision : Think of longevity too.*
- ✳ What important steps can provide you with a **"Well Functioning Arthroplasty"**. *We all want excellent function of revision arthroplasty also.*
- ✳ How to **Bail Out** of Difficult Situation. *There can be unexpected turns during revisions.*

Warm Regards,

Dr (Prof.) Anil Arora
Organising Chairman
Second Knee & Hip
Revision Arthroplasty Conference (RAC) - 2025, Delhi.

WELCOME MESSAGE

Dear Colleagues,

Warm greetings from Delhi!

RAC 2024 was a landmark scientific meeting in the field of **Revision Arthroplasty**, witnessing participation from over **850 attendees** and creating an atmosphere of intense debates, insightful discussions, and clear carry-home messages. Building on that resounding success, we are delighted to welcome you to the "**Second Knee & Hip Revision Arthroplasty Conference (RAC) - 2025**," to be held from **5th to 7th December 2025**.

This meticulously structured three-day academic forum will cover the complete spectrum of Revision Hip and Knee Arthroplasty from Fundamental Principles to the Most Complex Reconstructions, from Managing Complications to Exploring Technological Innovations. The program brings together Eminent National and International Masters in the field for Evidence-based Presentations, live Surgical Demonstrations, Case-based Panel Discussions, Implant Workshops, and most importantly Ample Time for Meaningful Interaction.

Our goal is to ensure that **RAC 2025**, like RAC 2024, becomes an academic milestone and a truly memorable experience. We look forward to your enthusiastic participation in this vibrant exchange of knowledge, skills, and ideas, all aimed at advancing clinical practice and improving patient outcomes.

On behalf of the Organising Committee,

Organising Secretaries – RAC 2025

Dr Deepak Kr. Arora
Organising Secretary

Dr Akshay Chandel
Organising Secretary

What Masters have to say about RAC 2024 !!

Dr Javad Parvizi
USA

"It's an incredible place and an amazing conference. Honestly, I wasn't expecting it to be as great as it has turned out to be. The attendance is fantastic. Delegates are very engaged. The faculty are extremely skilled. Very well-respected surgeons who are great speakers. Congratulations to the organizing committee. And of course, Thankyou to Professor Arora for putting this Inaugural Revision into a Hip and Knee meeting. **This Conference is a sellout.**"

Dr Vijay C Bose
Chennai

"**This conference was exceptional.** Most people have sorted out their concepts regarding primary hip arthroplasty and primary knee arthroplasty. **It is absolutely one of the best conferences I have ever attended.** The scientific content was exceptional. I was quite pleasantly surprised to see the hall was full all the time. Nothing better than to learn from somebody's experience and do the same for your patients. **It is a great idea to hold it every year.**"

Dr Anoop Jhurani
Jaipur

"**This conference was first of its kind** because of Dr. Arora to think of a revision conference on its own and to execute it so nicely was really commendable and this was a great meeting because the agenda was just revisions and we focused only on revisions. So, 9 out of 10 to Dr. Arora and his team for conceptualizing this meeting and executing it. **Scientific content was very good.**"

Dr Sanjeev Jain
Mumbai

"This conference is one of the good conferences especially when you consider for the revision of hip and knee arthroplasty and it has been done for the first time, so I'm sure this will generate a lot of education a lot of understanding of revision surgeries of hip and knees amongst us and of course amongst the delegates. **Such kind of conference should be done** because you can't keep on talking the same thing again and again and they're not so much of advancement and revision, so maybe once in the year would be a nice idea to do such a kind of conference."

Dr Bharat Mody
Vadodara

"**I would think that this is going to add tremendous value over the next one and a half days.** I can see the way in which it is unfolding, that every delegate here is going to go away incredibly enriched in the areas of discussions that are going on. **The scientific content has been of a very high quality.** Dr Arora and his team have packed in so beautifully that every minute is being utilized for scientific discussions and knowledge dispersion. **I would say that this type of conference should be made into an annual event** so that it builds up into a proper learning of course as years go by. this conference should be held every year, so that people can build up on the knowledge that evolves and that has already been established."

Dr Rajkumar Natesan
Coimbatore

"**This conference, to put it in one single word, it is fantastic.** It's one of the **very unique conference** that we are concentrating here on revision part of it, both hip and knee. So that is the uniqueness of it, because we are not generalizing the everything under arthroplasty. So particularly on, exclusively on hip and knee revisions, this is the **first of its kind in India.** So I will say this conference as fantastic. I will say that more, little more time for discussion and questions from the delegates would be a better option, suggestion, that's all. **I am looking forward to the next year meeting** now itself. I really congratulate Professor Anil Arora and his team for the excellent meeting and the hospitality."

What Masters have to say about RAC 2024 !!

Dr Manuj Wadhwa
Chandigarh

"I think spectacular, that's the right word. First time of its kind. As I see out here in India, revision is going to multiply exponentially across the roof. it's very important when people have already dealt with primary cases and complex primaries, they have to dwell their knowledge to the next level and that is a Revision Portfolio. From where I see, I think it's very much apparent the way the hall is full and nobody has left even for a coffee or a tea break. They are glued to their seats. I would give **10 out of 10 for the scientific pull-up agenda made up.** The way it is laid down right from the scientific agenda to the punctuality of the meeting to the content of the meeting and I think hospitality to it. So, you must make it a norm and way better than every time."

Dr A S Prasad
Kanpur

"This is one of the conferences, **one of the unique conferences** which I am attending this year. I am a faculty but I am also working as a delegate because already a day has passed and I have learned so many small things which I will take back and follow in my patience. A brilliant content, variety and it gives you so much ideas about what problems we face in a revision scenario. **I think the content is absolutely brilliantly put up** and the speakers are marvelous. The amount of revision cases we are having in the setup now, everyone must be equipped to deal with Revision Knee & Hip scenario and that way, **I think every year, there should be a conference of this type** and this meeting is the key. I think this will start a cascade of newer meetings based on the same theme, I am pretty sure. India is a vast country and we have to cater to vast number of orthopedic surgeons."

Dr Dipak Dave
Ahmedabad

The Education Chair of Indian Society of Hip & Knee Surgery (ISHKS). So, this is a first revision conference, we all know that the number of primary cases is increasing, so the revision cases are also going to increase and **it's good to have a precise revision conference only. Scientific content is extremely good** because it is covering all the parts of revision aspects of Hip and Knee, this is a great knowledge. I think the good part of this conference is **there is a lot of time given to the discussion,** so that's a good part the delegates can ask questions.

Dr Anil Oommen
Vellore

This conference, the **Revision Arthroplasty Conference, the first of its kind in the country,** organized by the dynamic Professor Anil Arora, is a wonderful meeting and it alludes and refers only specifically to the Revision Arthroplasty scenario both in the Hip and the Knee. I think this is a very very good initiative because in the emerging scenario of increasing Revision Arthroplasty especially with the number of primary Arthroplasty is growing, very relevant, **actually very necessary conference in the current scenario.** The **scientific content was excellent as is evident from the halls that were full,** the discussions that were very interactive, much more lively, entertaining and I think there was all round good scientific content because people are actually enthusiastic to learn more about this emerging scenario which is Revision Arthroplasty and which also pays attention to detail regarding the planning, regarding the preparation and the execution of a Revision Arthroplasty. In this current scenario where there is significant information pouring in everyday and especially with media and also with technology that is advancing everyday, I think this is a **good meeting to have every year** because all of us faculty and delegates alike can interact, can be faced with more emerging practical scenarios and also be armed with more technology and more practical solutions to our peculiar situations where we have peculiar cases and peculiar Revision scenarios.

Dr. Rajeev Sharma
Delhi

RAC is truly a landmark event in the field of Revision Arthroplasty. The conference has brought together an experienced faculty and an enthusiastic audience, creating an environment of rich academic exchange. **The scientific program is meticulously curated,** covering the entire spectrum of Complex Revision Scenarios in both hip and knee, with an emphasis on practical tips, planning, execution. I was particularly impressed by the interactive discussions, which reflected the keen interest and commitment of both faculty and delegates to advance knowledge in this challenging subspecialty. With the growing number of primary arthroplasty being performed across the country, meetings like RAC are not just relevant, but essential, to prepare us for the inevitable rise in revision cases. I commend the organizers for their vision, flawless execution, and the ability to make learning engaging and meaningful. I look forward to being part of **many more editions of RAC in the future.**

What Masters have to say about RAC 2024 !!

Dr Hemant Wakankar
Pune

The **RAC** conference on **Revision Hip and Knee Surgeries is truly valuable**, Especially for Young Surgeons. **The scientific content has been excellent** with **Highly Experienced Faculty**. Such a conference should definitely be held every year.

Dr Dhanasekara Raja
Coimbatore

The **First Revision Arthroplasty Conference New Delhi was Excellent with Rich Scientific Content**, case presentations, and engaging discussions. It's a valuable learning platform, and I strongly recommend holding it annually for greater growth and participation.

Dr Anup Khare
Agra

This Revision Arthroplasty Conference is Extremely Beneficial, especially for young surgeons, as understanding revision is vital after primary surgery. The scientific content was excellent and engaging throughout. Adding more surgical demonstrations would enhance learning. Such meetings should definitely be held every year for better training and knowledge sharing.

Dr Debabrata Padhy
Bhubaneswar

This first **Revision Hip and Knee Conference was timely and Extremely Beneficial**, with **excellent scientific content** and vivid presentations covering all aspects of revision arthroplasty. Such meetings should be held annually to help young surgeons master revision procedures for better outcomes.

ORGANISING COMMITTEE

◆ Organising Chairman ◆

Dr (Prof.) Anil Arora
Chairman & Chief Surgeon,
Head of Department,
Orthopaedics and Robotic Knee & Hip Replacements,
